Education

KPR Institute of Engineering and Technology
B.Tech in Computer Science and Business Systems
Honors Specialization: Data Science

2023 – 2027
CGPA: 8.99/10

Skills

Languages: Java, Python, SQL, HTML/CSS

Computer Science: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems & Networks

Software Development: Software Engineering, Backend Development, Web Development, API Development

AI/ML: Machine Learning, Scikit-Learn, Feature Engineering, Model Evaluation, Prompt Engineering

GenAI: OpenAI API, RAG, Whisper, Mistral, Embeddings, Qdrant, Vector Databases

Frameworks: FastAPI, REST APIs

Tools: Git, GitHub, Pandas, NumPy, Power BI, Tableau, VS Code

Experience

BlueStock Fintech

April 2026 – June 2026

Data Analyst Intern

- Collaborated with business and product teams to analyze financial datasets using Python and SQL.
- Built dashboards and automated reporting solutions using Power BI for data-driven decision making.
- Demonstrated ownership in delivering insights that improved operational efficiency.

RNDSoftech

Jan 2026 – Mar 2026

AI Intern

- Developed AI software solutions using Whisper, Mistral, and FastAPI.
- Built backend APIs and web-service components for speech-to-speech interaction.
- Worked in a collaborative environment to evaluate and improve model performance.

Infosys Springboard

Jun 2025 – Jul 2025

Data Visualization Intern

- Built sales forecasting solutions using Pandas and regression techniques.
- Created Power BI dashboards to visualize business performance metrics.
- Communicated insights through reports and presentations for stakeholders.

Projects

SWS AI Document QA Chatbot (RAG) | Python, FastAPI, OpenAI, Qdrant

- Built a web-based software development project using Retrieval-Augmented Generation (RAG) for company policy question answering.
- Implemented PDF ingestion, chunking, embedding generation, and vector search using Qdrant.
- Developed FastAPI APIs for document indexing and conversational question answering.
- Implemented semantic retrieval with source attribution and grounded answer generation.

Voice Agent AI Pipeline | Python, Whisper, Mistral, FastAPI

- Built a speech-to-speech AI pipeline integrating transcription, LLM response generation, and speech synthesis.
- Developed backend APIs for real-time voice interaction.

AI Help Bot – MOSDAC | Python, Scikit-Learn, TF-IDF

- Developed a retrieval-based chatbot using TF-IDF similarity search and document indexing.
- Exposed APIs for question-answering workflows and information retrieval.

Achievements

- Solved 250+ Data Structures and Algorithms problems and 100+ SQL problems.
- 2nd Prize – Pitch Perfect (KCT) and CRYPTERA (CIT).
- Special Prize – TN-Wise Hackathon.
- Vice President – Sweet Talkerz Club; Technical Head – Finance Club.
- Demonstrated communication, teamwork, collaboration, and organizational skills through leadership roles and technical events.
- Collaborated with peers during hackathons to design, build, and present software solutions under strict deadlines.
- Certifications: Generative AI (LinkedIn Learning), Data Visualization (Infosys Springboard), Introduction to Machine Learning (Simplilearn).
